My name is Easton Ellis, I'm a local college kid attending Winona State University. One of my best friends Quinten and myself are looking for hunting near Winona. We are die hard bow hunters looking for a place we feel conformable. We do not feel conformable hunting public land, that being said if you have a farm, you cut wood or anything for that matter we would be down to help out with anything you need! We are just looking for a place to hunt and show our passion of the sport!
